

Hello Phoenix Signs Partner Agreement With Arizona State Physicians Association To Offer After Hours Medical Answering Services To Over 2400 Physicians.

Hello Phoenix recently announced an agreement has been signed to offer after hours messaging services to Arizona State Physicians Association members.

([PRWEB](#)) June 11, 2009-- Arizona State Physicians Association members now have a better way to communicate with their patients after hours. Hello Phoenix recently signed a partner agreement to offer after hours services to 2400 Arizona State Physicians members.

According to Dan Pierson, president of Hello Phoenix, medical offices are looking for ways to improve patient communication and reduce risk.

"We have designed the most HIPPA compliant messaging service in the industry. Our after hours medical triage service improves response time by 91% over traditional live operator services," he says.

Breakdowns in physician contact can cause serious problems in any hospital or clinic by delaying critical decision-making processes and increasing patient care risks, costs and liability, while reducing staff productivity and negatively impacting the efficiency of the commitment to patient care. Arizona State Physicians Association members can enhance patient care with a seamless, 100% guaranteed medical communication solution, they will also be able to monitor, measure and analyze their patient care contact process, enabling them to further enhance their practice as it grows and changes to meet current patient needs. It is the mission of this partnership to provide the best communication technology possible to the Arizona State Physicians Association members in today's highly complex and interdependent medical environment.

Hello Phoenix provides advanced communication technology that processes calls and messages via digital protocols customized to the practices individual needs. The solutions fully integrate with the workflow of a practice, while guaranteeing seamless communication to patients, staff, nurses and doctors on a day-to-day basis and during critical decision-making times. Hello Phoenix processes all of medical communication needs efficiently and professionally with a solution capable of processing millions of voice and data exchanges per day without error.

Hello Phoenix Solutions are streamlined, resulting in superior hospital-to-physician communication process, staff productivity and resource efficiency. With the ease and reliability of advanced messaging solutions practices will experience far greater staff satisfaction. Fast and effective physician contact is a vital component to quality patient care.

About Hello Phoenix:

Hello Phoenix designs automated messaging applications for hospitals and clinics across the country. All applications are hosted on enterprise services located in Scottsdale Arizona.
